SCM MAINTENANCE MIX

Special custom mix, Low calorie fortified feed

PERFORMANCE

Arabian Summer Mix provides essential nutrients to help maintain optimum health and condition of endurance horses that are resting and recovering after a busy season. The ration is high in fibre to help support the digestive system and restore optimum digestive balance after a long and intensive season.

SCM MAINTENANCE MIX is suitable for:

- Resting endurance horses during the 'off season' to support optimum recovery in preparation for the next season
- Endurance horses during initial fittening work
- Direct transitioning during full training if work is suddenly stopped or reduced

Features & Benefits:

- Excellent cost-effective feeding.
- High fibre formulation for gut health.
- Quality protein sources for maintaining normal cell, tissue and muscle repair.
- Fully fortified with vitamins and chelated minerals and is oat free to help reduce behavioural problems when horses are not in work.
- Formulated to ensure smooth transitioning from a lower energy feed through to the higher energy endurance feeds.
