

AIRWAYS™ XTRA STRENGTH POWDER

Supports Healthy Airflow

A complementary feed for horses, designed to support a healthy respiratory system, as part of a balanced diet.

Potent blend of essential oils, including Eucalyptus, Menthol and Peppermint to provide nutritional support for the respiratory system. Palatable and easy to mix in feed.

What are the benefits of Airways Xtra Strength Powder?

Eucalyptus oil is well known for its ability to help clear the respiratory tract of a build-up of mucus caused by exposure to dust, fungal spores, pollen and other small particulate matter.

Peppermint and its active ingredient - Menthol, have been used for centuries to help open the airways and clear excess mucus. Many of the natural compounds found in peppermint oil will provide nutritional support to help the horse's own respiratory defences.

Key Ingredients per 14g Serving:

Eucalyptus Oil	266mg
Peppermint Oil	28mg
Menthol	14mg

Additives per kg:

Sensory additives: 2b Eucalyptus oil 6000mg, 2b Peppermint oil 2000mg, 2b02015 Menthol 1000mg.
