

BUTELESS HIGH STRENGTH PASTE

For Equine Joint Health

Provides rapid-action support to help the horse's own anti-inflammatory processes and promote recovery.

- Convenient, easy to administer 30 ml syringe.
- Palatable blend of three key plant-based ingredients to help maintain joint and muscle comfort and support mobility in all horses and ponies.
- Includes Boswellia, Curcumin and Marshmallow extracts to help support the horse's own anti-inflammatory processes.

What are the benefits of Buteless Super Strength Paste?

- **Boswellia** - has been shown in both human and animal studies to support the horse's own anti-inflammatory processes. Boswellia also provides antioxidants and other important phytochemicals to support joint health and comfort.
- **Curcumin** – one of the key active compounds in turmeric, providing antioxidant support as well as supporting anti-inflammatory processes - with added black pepper and oil to support absorption.
- **Marshmallow** – contains a number of compounds which are thought to support the horse's own anti-inflammatory processes to help maintain joint and muscle health and comfort.
